Overtime and double time are stated as separate line items from your base rate. The "base" rate constitutes your **HOURLY STRAIGHT TIME RATE**. The "premium" rates are the overtime and double time premiums. Overtime premiums are 50% of your total straight time rate and double time rates are 100% of your straight time rate. Please note that when you earn a shift differential during overtime or double time, the premium portion of the shift differential will be included in the overtime premium calculation.
